

ONE

Touch | Keypad Quick-Milk

Coffee, Hot Water and Milk
Touch Screen or Keypad user interface

Modern Simplicity

The Egro ONE Quick-Milk is the perfect solution for locations that sell a low to mid volume of espresso drinks and want one button convenience.

Milk
Connection

up to
250
espressos / hour

up to
180
coffees / hour

up to
120
cappuccinos / hour

up to
60
latte macchiato / hour

Two main versions:

ONE Touch

with a large 5.7" touch display

ONE Keypad

with a traditional keypad.

The ONE Touch has an advanced user interface with a 5.7" touchscreen graphic display in full colour.

The easy-to use user interface guides the barista through the choice of products. The multi-colored page system enables the barista to choose from 48 products, each one with its own attractive user-friendly icon. Restricted access technical menus offer the machine administrator a wide range of additional functions, such as precisely defining the ingredients of each individual drink, creating new drinks, checking machine consumption, running diagnostic checks and regularly cleaning the machine with step-by-step procedures shown on the display.

Dura-Brew. The ONE features the most durable brewing technology available in this class of equipment. The patented stainless steel brewing group features advanced sealing technology which requires less maintenance visits and reduces the cost of ownership.

LED Lights. Brilliant LED lights illuminate the drink preparation area, resulting in a stunning visual design and they serve a functional purpose. Lights shine blue when the machine is ready, white when its brewing, red when its rinsing and green when an action is required during cleaning.
