The WMF 1200 S is available with the following milk and steam systems.

The information on the milk system, as well as the drinks that can be prepared with it, can be found in our product range of coffee machines.

Dark beauty with impressive, internal values

The WMF 1200 S is a high quality professional coffee machine for small to medium needs. It can do anything your heart desires – from Espresso and Café Crème to Cappuccino, Café Latte, Latte Macchiato and even Milk Choc and Chociatto. At the push of a button, reliably and of top quality. The self-explanatory display makes the path to your perfect coffee enjoyment child's play. Its possible fittings, its range of services and, not least, its price, make the WMF 1200 S the clear favourite for many users. It is as much at home in the office, medical practice and fitness studio, as in a small restaurant or petrol station, bakery or hairdresser's, in a fast food shop or hotel bar. With the appropriate accessories, the machine is also a genuine all-rounder. The price tip among professional machines.

FEATURES

Plug+Clean
With the patented Plug+Clean milk cleaning system, all milk-carrying parts are cleaned easily and in compliance with HACCP. - Confirmed by the Technical University of Munich.

Flexible water pipe
Depending on requirements and situation, a WMF 1200 S can be fitted with a water tank or fixed connection.

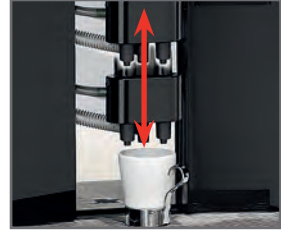

Variable number of drink buttons
A maximum of 6 buttons can be programmed for coffee specialties. Second-level drinks are triggered with a double-click.

Delicious Milk Choc and Chociatto
With plenty of fresh milk nearly any creation can be made from milk, coffee and chocolate.

Hot water at the perfect temperature
produced by the WMF 1200 S, for example for tea, of course.

Height-adjustable spout
The spout is easily adjustable to enable cups from 59 to 169 mm tall to be filled.

Fully automatic cleaning
At the press of a button. Saving time and reducing operating costs.

Manual insert
It is possible to use other types of coffee, e.g. ground decaffeinated coffee, by using the manual insert.

Well thought-out hopper
The hoppers can be locked before removal (optional), to make cleaning and refilling very much easier.

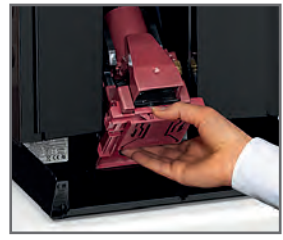

Large ground coffee container
The easy-to-reach, centrally positioned ground coffee container has a large capacity.

The simple labelling concept
allows individual designs and the easy replacement of button labels with drink names, prices or images.

Reaching new heights
If you want to have even more space under the WMF 1200 S, the 10 cm high „feet“ - which are sold separately - easily provide even more „leg room“. And this also means that the area below the machine can be cleaned effortlessly.

Maintenance can be so easy
Basic maintenance work can be carried out yourself making it rare for the WMF Service Engineer to see your machine.

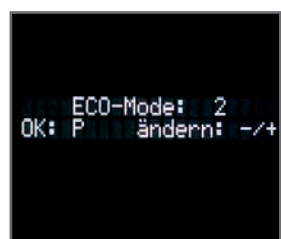

Spot on!
Two integrated LEDs underneath the front panel light up the spout and presents your drinks in the proper light.

The accessories
such as cupboard, milk cooler, coin checker or cup dispenser make the WMF 1200 S a team player - even for self-service.

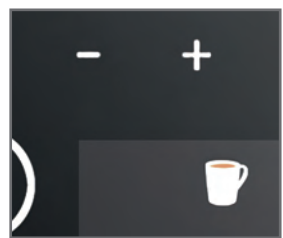

Keep it simple
All the important functions and parameters can be set using the two-line display and five function keys.

Less electricity consumption
With three Eco modes and settings for an automatic switch-off, the customer can adjust their electricity consumption to their individual habits.

Zero-Energy Function
When the WMF 1200 S is switched off, it is „off“. This means it does not consume any more electricity.

Coffee, just as your customer likes it
By pressing the + or - button for a short or long time, a drink can be selected individually strong or mild, large or small.

Permanent descaling
A filter cartridge in the water tank or a WMF water filter on a mains connection lengthens the maintenance intervals, improves the taste and extends the life.

Slim build
A WMF 1200 S is only a little bit wider than the long side of an A4 page. So there's room for two even on the smallest counter.

Environmentally friendly thanks to »Green WMF«
Reduced energy consumption, fewer chemicals and nearly complete recycling are just a few points of the sustainable WMF concept.

Service
A worldwide service network unique in the industry covering more than 80 countries ensures that you can always rely on your WMF coffee machine.

ISO certifications
The WMF business division for coffee machines is certified in accordance with DIN 9001/ quality management and DIN 14001 / environmental management.
